Sean Lally

WEATHERS Founder

www.w-e-a-t-h-e-r-s.com

Sean Lally founded the office WEATHERS to embrace the potential overlap between the disciplines of architecture, landscape architecture and urban design. Recent projects include proposals for the Academy of Arts in Tallinn Estonia, an extension to the Stockholm City Library and a proposal for the urban redevelopment of Reykjavik Iceland. Sean's work has been featured in exhibitions and journals and has lectured at a range of schools including, UPENN, Syracuse, Cornell, OSU, and the Technion. He's been a visiting instructor at UCLA, and an Assistant Professor at RICE School of Architecture before recently joining UIC's School of Architecture as an Assistant Professor in 2009. Sean is most recently a co-editor and contributor to SOFTSPACE, From a Representation of Form to a Simulation of Space, from Routledge 2007 and quest editor and contributor for the AD Journal issue entitled "ENERGIES - New Material Energies" through Wiley Press 2009 .

Lecture:

"The Air on Other Planets"
